# PROFILE

ECOPIXEL is made up of professionals with 20 years of experience in the plastic industry and more than 5 years of research and development in the recycled plastic field.

ECOPIXEL Developed by  
Claudio Milioto and  
Jan Puylaert  
100% made in Italy  
production. © 2021

manager / with Arch. Alessn-  
dro Mendini

ECOPIXEL is a manufacturing company that recycles mono-polymer plastic typol-  
ogy, made from 100% shredded waste material. The material is usually made with  
industrial thermoplastic waste but more and more also with collected material  
from any other field including household-waste.

Recycling a mono-polymer means the material can be melted and re-melted  
an infinite number of times resulting in a forever circular material and creating  
this way a true "cycle" in material-use. As long as a material stays "clean" (read  
mono-polymer) it can be transformed at the exact temperature of the polymer  
involved and so, the material will never "burn" and deteriorate. Keeping polymers  
separate is thinking also about what happens after the recycled cycle.  
With ECOPIXEL, after you, someone else will be able to recycle what you have recy-  
cled, so never again new extraction of raw materials will be needed.

ECOPIXEL wants to promote the idea of NEVER mixing different plastic-waste-ma-  
terials so to keep the plastics "clean" and ready for reuse also after each prod-  
uct-lifecycle. Apart from producing products in ECOPIXEL for other companies,  
ECOPIXEL also exists as a design-label that promotes their own designs.

ECOPIXEL has  
achieved the level of  
know-how & reliability  
needed to be accept-  
ed by the New Plastic  
Global Commitment  
/ Ellen MacArthur  
Foundation.

# RECYCLED & RECYCLABLE

ECOPIXEL COLLECTS, SEPARATES, CHIPS INTO PIECES AND  
RETRANSFORMS INTO PRODUCTS, WHAT OTHERS THROW AWAY.

## CIRCULARITY

ECOPIXEL is an italian  
manufacturing company  
that recycles thermoplastic  
waste-material in order to  
obtain a recycled (1) and  
recyclable (2) material creat-  
ing this way a true \*cycle in  
material-use

A NEW RECYCLED MATERIAL  
THAT IS SUSTAINABLE

4

Materials

ECOPIXEL is a recycled thermoplas-  
tic monopolymer material. (1) 3D  
moulded products (2) SHEET tiles  
of various size thickness (3) In-  
jected products. ECOPIXEL comes  
in a range of multi color & pixelated  
effects (except for the injected  
version). Following availability of  
waste materials it offers different  
possibilities.

10

Wide range of Colors

From the world of "COLOR WASTE"  
we create melanges everyday how-  
ever we depend on an unpredict-  
able supply chain called "TRASH"  
  
ECOPIXEL appears in different  
faces, even though available in  
unlimited combinations, is easily  
recognizable. Each product that  
is made of ECOPIXEL is unique  
because the pixels melt togeth-  
er randomly in the production  
process: By coincidence, the colors  
don't mix.

17

Effects & Finishings

Research and tests allow us to  
offer different effects of different  
surface finishing procedures on the  
change in surface roughness and  
visual textures: TRASHPLAST, PERT,  
TAPS, REVERSE, BLACK IS THE NEW  
BLACK, among others.

# SHEETS

FOR THE SHEETS THE PRICE IS NET, THERE IS NOT DISCOUNT TO BE INCLUDED. YOU ORDER THEM INDIVIDUALLY AND IN ANY COLOR OF YOUR CHOICE FROM THE STANDARD & ENCANTO ECOPIXEL'S PALLETS.

Dimensions	Thickness	Weight	Price ex-VAT
240 x 120 cm	10/11 mm	29 kg	€ 630,00
	15/16 mm	46 kg	€ 760,00
	20/21 mm	60 kg	€ 952,00
	30/31 mm	88 kg	€ 1212,00

## ECOPIXEL COLOR LIST

From next page, check Standard and ecopixel / ENCANTO color pallets.
